ALLWOOD SHEDS

The Eco-Friendly Shed

These attractive Cedar Shiplap buildings blend into any environment, and are made from naturally durable locally sourced New Zealand timbers. We have a number of size options available for the many uses.

These buildings come in a kit-set form with Assembly instructions and come with all the fixings components necessary to erect your Shed. A prefinished floor can also be supplied so all you have to do is bolt the floor together and you are ready to stand your frames.

The modular components are lined with building paper and all screw together forming the walls, this allows doors and windows to be placed on any wall. We can also fully assemble.

Allwood Sheds have an extensive range of Timber Sheds. Site preparation is minimal as our Sheds will sit on Bearers. Our Sheds can be customised to suit your requirements.

Freight Costs Additional.

Assembly available Nelson, Christchurch,
Wellington, and Auckland.
